Year 13	 <p>Get prepared for writing your Personal statement with the help of Unifrog's guides, wider reading materials and statement writing tool.</p>	 <p>Use the largest directory to find 1000+ open days at Universities and colleges. This site also provides you with a link to virtual University encounters.</p>	 <p>Applying for jobs can be overwhelming, especially if it's new to you. Making sure you fully understand the application process, including all the potential stages of interviews will help you fully prepare.</p>	 <p>Unsure about what to expect from University? This guide will help you to make University choices including which university to choose and which course to choose. It will also help you to link University courses to potential careers.</p>	 <p>Budgeting is an essential skill for any university student. Your student loan is paid to you in three big chunks at the start of each term, so you need to make sure you make it last to your next payment. Have a go at this downloadable activity to develop your knowledge of finance and budgeting as a student</p>	 <p>This pack explains what an apprenticeship is and the types of apprenticeships you can study after sixth form or college. Some universities offer higher and degree apprenticeships, but not in every subject. This is a new qualification so new ones are being introduced all the time. This is an alternative to going to university to study a traditional degree, so find out everything you need to know by downloading this information pack.</p>
