Activity	Example	Guidance & templates
Info-graphics	**Reduce a large body of text in to a visual, bitesize infographic**  **Tip** **Follow the 3S framework** ➢ **1.Select the most important information** ➢ **2. Split up the information into logical parts** ➢ **Sequence the parts to tell a compelling story**	YouTube
Dual coding	**Transforming the written word into pictures using visual cues**   **Tip** **Use a range of artistic clues. Keep pictures simple - avoid sentences or paragraphs and instead use:** ➢ **Letters – to signify characters/ people/ places** ➢ **Colour – to signify meaning** ➢ **Words – kept to an absolute minimum** ➢ **Symbols – used in place of words**	YouTube

Brain dump	**A brain dump is when you write down EVERYTHING you can remember about a topic**  **Tip** ➢ **For the first 30 seconds, write everything you easily remember.** ➢ **Then, stretch your brain for one minute and think hard to remember more.** ➢ **Finally, peak at your notes and write down more things you remember for 2 minutes**	YouTube **Template**
Mind map	**Reduce and organise a body of text in to a sequence of key words**  **Tip** ➢ **Use the main parts of the topic as the first branches.** ➢ **You can get these from your notes to make sure that you include everything.** ➢ **Try to add more detail to these branches from memory**	YouTube
Knowledge clocks	**Break down large chunks of information in up to 12 manageable chunks**  **Tip** ➢ **Spend 5 minutes to complete each section.** ➢ **Do this from memory and then use your notes to check and correct**	**Template**
