

INTENT:

“Language is the road map of a culture, it tells you where its people come from and where they are going”

Rita Mae Brown

Studying Spanish at The King's aims to ignite a curiosity and love of languages and other cultures. Through a focus on both culture and communication, the Spanish department aims to foster a passion for learning a new language.

The Spanish course aims to develop students' linguistic competence, initially via listening and speaking and then reading and writing.

Spanish students are challenged by authentic target language materials where appropriate such as signage, leaflets, literary extracts and films to combine exposure to Hispanic culture as well as enhancing language and problem-solving skills.

Perhaps most importantly, language learning at The King's intends to broaden students' horizons and their understanding of their place within the world. Through studying Spanish and having the opportunity to join our trips abroad, students will see the benefits of travelling the world; ensuring they have the means to communicate and have enjoyable, life changing experiences.
